The News.

We have this morning, some late and interesting intelligence from Utah. The Mormons are emigrating from Salt Lake Valley, to a place named Prevo, distant 40 miles, where, it is said, they intend fortifying themselves against further molestation. Col. JOHNSON would soon leave for Salt Lake City.

We have also some later dates from Mexico. The Indians are committing great depredation; whole villages have been burned, and the population murdered. The political news is of interesting nature.

Another crevasse has opened in the Mississippi River. The great Yazoo Pass in the Tennessee, has given way, and it is feared the entire Yazoo valley will be flooded.

The telegraph this morning reports a decline on wheat and flour, in the New York market.—Our own produce market was not so active yesterday, and prices somewhat lower. The weather continues pleasant, and summer-like. It looked a little like rain yesterday afternoon, but we had none up to nine o'clock last night. Nothing of startling importance occurred in our city yesterday.

Rates of Postage.

Some of the oppositon journals have contained indignant comments on the defeated proposition of the Senate, to increase the rates of postage; and the names of the Senators who voted for an increase are published to show that the Democratic party are committed to high rates of postage! How swift the Republicans are to take up any sort of weapon against the National Democracy—to seek pretexts to assail the policy of our party and begrime our prominent men!—*News of yesterday.*

And why should not Republicans be "swift" to denounce such short-sighted and injurious "policy" as that of doubling the Rates of Postage, and hold up to merited popular rebuke, the authors and abettors of the proposition? The record shows that the majority in the Senate, who voted for this proposition, were *all* Democrats. Why should not the Democratic party be held responsible for that vote? The blow came from the same quarter which has dealt similar ones at the interests of the *North* and *West*.—The same men and the same party who voted to double the Rates of Postage, and have this year voted to raise the Annual Appropriation Bills to *Seventy-Five Millions of Dollars*, also voted *against* giving one cent for the protection of Lake Commerce, though its aggregate annual value now exceeds three hundred millions.—Pray, why should we not be "swift" to denounce these wrongs, and to hold the party whose representatives commit them, responsible for their evil deeds.

TRIAL AND CONVICTION OF AN ASSEMBLYMAN.—The Madison *Argus* learns that in the U. S. Court at this city, JOHN W. SHARP, member of the Assembly from Cottage Grove District, in Dane County, was convicted on the indictment against him, for running a private express in opposition to the U. S. mails.

He was fined $150 upon being found guilty by the jury, and severely reprimanded by the Court.

If we are correctly informed as to the facts in this case, this "reprimand" was wholly undeserved and the fine unjustly imposed. Mr. SHARP ran no "opposition" to the U. S. Mails, but merely carried letters, &c., for his neighbors, without compensation, to an adjacent Post Office—the Administration having utterly disregarded the wishes of the people in the selection of a Postmaster, and the people, in retaliation, refusing to patronize the obnoxious Postmaster. We think that Mr. SHARP was wrongfully convicted and hope to see the wrong righted.

☞ The vote in the Senate upon the question of declaring Messrs. BRIGHT and FITCH not entitled to seats as Senators from Indiana, stood: Yeas 23, Nays 30. All the Republicans, and Messrs BRODERICK, DOUGLAS, MASON, and PEARCE (Democrats), and HOUSTON (Am.) voted against the bogus Senators. All the other Democrats and Americans present voted to keep them in. Messrs. STUART, CAMERON, BAYARD, CRITTENDEN and SUMNER were absent.

CHANGE IN THE CLEVELAND POST OFFICE.—The Cleveland *Plain Dealer* of Tuesday makes the following announcement. The knowledge of Mr. Gray's continued suffering from the loss of his eye, adds to the regret which will be felt at his expulsion from office on account of a manly expression of opinion.

The long mooted question of the removal of Mr. Gray from the Cleveland Post Office has at last taken place, and Mr. Harrington has been appointed. The recent calamity of Mr. Gray, which has resulted in the complete loss of his right eye, has so overwhelmed him and his family in grief, and so prostrated him physically that he is still unable to read or write to his paper.—The condition of his remaining eye is such as to require him to avoid, as much as possible, all mental excitement for the present, and the public will have to wait his personal vindication in this matter until his health shall be so restored as to allow him to resume his pen.

The public, however, are already aware that Mr. Gray's removal was occasioned by his having differed with the President on the Kansas question, in fact, *for doubting the immaculate conception of the Lecompton Constitution.—Editor pro tem.*

NATIONAL HORSE EXHIBITION.—The third annual National Horse Exhibition, is to take place at Springfield, Mass., from the 14th to the 17th of September next. Horses from nearly every State in the Union, it is thought will be exhibited there. The exhibition is to be held in a sixty acre park, and very extensive arrangements are being made to render it one of the finest exhibitions of the kind that has yet taken place in this country.

WANTED.—Mr. J. E. SMITH, a member of MOSIER & HOLLAND's theatrical company, which is now performing somewhere in the western part of this State, is urgently needed by his family at Racine. They do not know where to write for him, and any of our country exchanges who may be aware of his whereabouts, will oblige the family by calling his attention to this.

Steamer Fulton Ordered to Paraguay.

NEW YORK, June 18.

The Times Washington correspondent says, the steamer Fulton, of the Gulf Squadron, is to be ordered home immediately, to be fitted out for Paraguay, under command of Lieut. Almey.

The Challenge and the Answer.

We give below the challenge sent to Mr. Wilson by Mr. Gwin, with the answer of Mr. Wilson. The letter will be commended for its manly tone. The telegraphic report brought news of the settlement of the difficulty on much more sensible terms than usual. There were no assurances of "distinguished consideration," but each retracted the undignified remarks which caused offence.

MR. GWIN TO MR. WILSON.

WASHINGTON CITY, June 11, '58.

Sir—You will oblige me by informing the bearer of this note at what hour it will be convenient for you to receive a communication from me outside of the District of Columbia.

Your obedient servant,
WM. M. GWIN.

To Hon. Henry Wilson, Senator from the State of Massachusetts.

MR. WILSON TO MR. GWIN.

WASHINGTON CITY, Friday June 11, '58.

Sir—Your note of this morning, requesting to be informed at what hour it will be convenient for me to receive a communication from you outside of the District of Columbia, has been placed in my hands by your friend, the Hon. Mr. Fitch.

I cannot mistake the purport and intention of your note, and I reply to it as I replied to a similar one on a similar occasion, two years ago. "I have always regarded dueling as the lingering relic of a barbarous civilization, which the laws of the country has branded as a crime. While, therefore, I religiously believe in the right of self defence, in its broadest sense, the law of my country, and the matured convictions of my whole life, alike forbid me to meet you for the purpose indicated in your letter."

Your obedient servant,
HENRY WILSON.

FOURTH OF JULY.—The firemen have completed their arrangements for celebrating the approaching National Holiday, and on Wednesday evening next the Officers of the several Military organizations are called together for the same object. Our country friends may, therefore set it down as a fixed fact that there will be a Grand Celebration here on the 5th proximo, and we hope that thousands of them will come into the city and participate in the festivities of the occasion. We presume that all the Railroad Companies will run Excursion Trains, as usual, on that day, carrying passengers at half fare.

ANOTHER HOME INVENTION.—Mr. S. C. SALISBURY, of this City, is just now completing a patent brick machine, of his own invention, which far surpasses anything of the kind in use. By those who understand the business, and have seen the machine, it is considered the most valuable improvement for the manufacture of brick now in use. It is said to be very simple, yet gotten up with great ingenuity. The clay, with but little preparation, is put into the machine, as grain is put in the hopper of a mill, after which it is pressed out, in any shape or size that may be desired. It is capable of making *one hundred and twenty-one* handsome pressed brick a minute, all ready for the kiln. Pipes, tyles, and all such things, can be as easily made by it as bricks. We have been shown a piece of pipe, about a foot long, and two inches in diameter, the interior of which was nearly as even, and full as smooth, as a rifle barrel. The bricks made by this machine will have a perfectly even surface, and be much smoother than ordinary pressed brick. We shall be pleased to see this machine in practical operation. There is little doubt but that the enterprise and skill of its inventor will be amply rewarded.

GENEROUS.—As the editors who were on their way to Madison on Tuesday night, stopped at Janesville, they were bountifully entertained by Major-General John McManman, mine host of the Hyatt House. The best that the house afforded was gratuitously placed at their service.—The same generous course has been pursued towards them by Messrs. Hasbrouck and Pearce, of the Walker House, of this city. They have entertained editors on their way to and from the convention, in the most courteous manner, and without any charge.

We take pleasure in fully endorsing this well merited compliment to the proprietors of both of these hotels, from the *News*, and no doubt our brethren of the Press will long remember the kind hospitalities extended to them by these courteous landlords.

LIGHT GUARD CADETS.—This spirited young Company make their first full dress parade, this (Saturday) afternoon. They will be well worth seeing.

MILWAUKEE LIGHT GUARD.—Company "B," Milwaukee Light Guard, under the command of Capt. E. F. TOWNSEND, turned out with full ranks, Thursday evening, for street drill. They appeared to excellent advantage, and went through their exercises in very creditable style.

HOMOEOPATHIC MEDICAL ASSOCIATION OF THE STATE OF WISCONSIN.—A meeting of the Homoeopathic Physicians of the State of Wisconsin, was held in this city, on Wednesday last, for the purpose of organizing a State Medical Institution, and through it, some efficient means to encourage and foster scientific medicine throughout the State.

There was a general attendance from all parts of the State. Letters were also received from several distinguished Physicians whose professional engagements rendered it impossible for them to attend the meeting.

No person was admitted as a member, who was not a graduate of some regular medical institution, and who could not give satisfactory evidence of his ability to apply the great therapeutic law *Similia Similibus Curantur* to the treatment of disease. Considerable interest was manifested, and a determination expressed, to rid the profession of ignorant pretenders to homoeopathic practice, and those who claim sympathy from us because they sometimes employ our remedies, without any knowledge of their appropriate applications, as well as those who constantly mingle gross drugging ith a pure Homoeopathy.

Hereafter memberships in the Homoeopathic Medical Association will indicate the acknowledged membership of our profession.

The officers elected for the ensuing year were as follows:

President—L. M. Tracy, M. D.
Vice President—J. S. Douglass, M. D.
Corresponding Sec'y—T. J. Patchin, M. D.
Recording Sec'y—G. Bettely, M. D.
Censors—D. T. Brown, M. D., A. W. Gray, M. D., G. W. Perrine, M. D., S. B. Thayer, M. D., W. M. Williamson, M. D.
Bureau of Materia Medica—P. B. Hoyt, M. D., J. S. Douglass, M. D., D. T. Brown, M. D., G. W. Perrine, M. D., W. M. Williamson, M. D.

After the choice of officers the meeting was adjourned until evening, when the Assembly was agreeably entertained by very interesting remarks from Prof. Williamson, of Philadelphia, and others.

GEO. W. BETTELEY, Sec'y.

THE CONCERT OF THURSDAY.—Notwithstanding the very warm weather, on Thursday evening, a very large and appreciative audience welcomed VIEUXTEMPS, D'ANGRI and PERRING to Milwaukee. VIEUXTEMPS, the "king of violinists," fully sustained his world-wide reputation, though we regretted to see so accomplished an artist resort to the "stage tricks" of playing on one string, giving "Yankee Doodle" in response to an *encore*, &c. Madame D'ANGRI has a fine presence and sings admirably. She was applauded to the echo. M. PERRING, the tenor, astonished and delighted us by his pure, sweet and sympathetic voice, and was encored in every piece. The accompaniment was excellent.—Indeed, the whole concert was a great success and would well repay repetition.

GOVERNOR'S GUARDS, MADISON.—This fine company is making rapid headway, and bids fair to rank as No. 1, among the volunteer companies of the State. On Wednesday afternoon, while we were at Madison, they turned out sixty strong, and went through their company drill, with great precission. Messrs. WELLS & DICKSON, of this city, are getting up their uniform, which is dark blue, and conforms closely to the Army Regulations. We saw a number of the suits yesterday, and think no neater, or better made uniforms can be found in the State. Mr. WELLS informs us that they will be finished and forwarded to Madison, by Thursday next.

WATERTOWN HOSPITALITY.—A delegation of our Milwaukee City Dragoons went to Watertown, by invitation, two or three days since, to attend the first parade of the new German Rifle Company, just organized there. They were received with the utmost kindness and hospitality, and have requested us to return their acknowledgements to the citizens of Watertown, as well as to the officers of the Milwaukee & Watertown R. R., who showed them every attention.

GODY'S LADY'S BOOK FOR JULY.—We have received the July number of this favorite periodical from JOHN SIGERSON, of the News Depot. It contains, as usual, a number of choice engravings, together with the latest styles for ladies' and misses' dresses, and also a large amount of interesting reading matter. The "Lady's Book" has now become an indespensable periodical in the family circle.

SUMMER WEATHER.—The past three or four days has been truly delightful weather, and the only weather we have had since Summer commenced, deserving that name. Thursday and yesterday, were almost uncomfortably warm, so sudden was the change from the cold rains of last week, and the week previous. Everything, yesterday, seemed to have a Summer appearance. People walked largely through the streets, attired in the airiest garments of summer, and soda water and ice cream, were sold in astonishingly increased demands. An occasional cloud, however, which darkened the face of the sun now and then, led us involuntarily to think of more rain—almost with a shudder.—But it did not come, and now we think it may be safe to say that Summer *has come*.

THE BENEFIT THIS EVENING.—At the National Theatre, this evening, it will be remembered, Mr. HANCHETT, a capital actor, and manager of the company, takes a benefit. Those who have witnessed Mr. HANCHETT's fine representations since the National Theatre opened here, will not fail to be present this evening, upon the occasion of this benefit. Mr. HANCHETT has been to a heavy expenditure to bring a good company of artists here for the amusement of our citizens, and he will merit a rousing benefit. The bill offered for the occasion is quite an attractive one, Schiller's Tragedy of the *Robbers*, and an interesting comedy to close the performance.

☞ At a meeting of Liberty Hose Co. No. 2, held on Thursday last, the following resolution was universally adopted and ordered to be published:

Resolved, That the thanks of this company be and are hereby presented to the officers and members of Supply Hose Co. No. 1, for their gentlemanly conduct and friendly escort to and from the place of forming into line, on the day of inspection and parade of the fire department, May 17, 1858.

Resolved, That the Secretary be requested to forward a copy of the above to H. A. Starr, Foreman of Supply Hose Co. No. 1.

W. HENRY HOLLAND, Foreman.
FRANK McCORMICK, Sec'y.

NEW YORK AND ERIE RAIL ROAD.—It will be seen by an advertisement that the New York and Erie Rail Road Company, have considerably reduced their fares since Monday last, being now but $6,10 from Dunkirk to New York, $5 from Buffalo to New York, and the same, from Suspension Bridge to New York.

SUNDAY LECTURES AT TREAT'S HALL.—Mr. W. MARTIN will again address our citizens on Spiritualism and kindred subjects, on next Sunday, (to-morrow) at half past ten A. M., and half past seven P. M. All are cordially invited to attend.

POLICE COURT YESTERDAY.—Frederick Vogle, fast driving on the street, was fined—and costs. Jeremiah Warden, drunk and disorderly—was fined $2.

LATE N. Y. PAPERS.—We are indebted to SIGERSON, of the News Depot, for the *Tribune*, in advance of the mail.

ACCIDENTS!—On Thursday afternoon a horse, attached to a light wagon, walked into the canal near LANGWORTHY's Iron Works, immediately got into deep water and was drowned. Another horse got in it the same way, a little further up, the same afternoon, but was got out alive.—Hardly was the excitement caused by these accidents over, when a fine horse, with a buggy attached, came up West Water street at a lightning speed, and crossing the rail road track opposite the Empire Mills, plunged into the canal, buggy and all! He swam up the canal about 40 rods, when he walked out bringing the buggy all safe along with him. This cooled him off considerably, and he was very quiet when he gained dry land.

☞ CALEB WALL has a Billiard Table for sale at a great bargain; he also has a great sale of Dry Goods on Wednesday morning, June 23rd, and he wants merchants from the country to attend.

HARPER FOR JULY.—SIGERSON, of the News Depot, 209 East Water street, is already in receipt of Harper's Magazine, for July. It is full of interesting matter and graphic illustrations.

GOOD LUCK.—A Mr. N. B. DEAN, residing at the corner of Third and Green Bay streets, bought a book at the Gift Book Store, 198 East Water street, Tuesday night, and drew a *Gold Watch* worth $50 00. The beauty of the sale is that the purchaser can select, instead of his gift, a ten shilling book, making two for $1 25; which is the poorest trade any one gets. Call soon for their stay is short. je19y705d1t

To the Public.

TO our friends and acquaintances we make the mournful communication, that our partner, Mr. CHARLES W. EWE, by the sudden downfall of our warerooms yesterday afternoon, has lost his life. All those who knew him personally, will deplore his death with us.

To the Fire and to the Police Departments, and to our fellow citizens in general, especially to the Chief Engineer, Mr. Daniel Schultz, we give our hearty and sincere thanks for the active and ready help, which they rendered to us at the grievous disaster.

Our business friends we have to inform, that our business will be continued under the same firm as heretofore and that within two or three days we shall be ready again to execute promptly all orders.

Later from the South.

WASHINGTON, June 18.

The mail from the South is at hand; it is as late as due.

The New Orleans papers bring details of the Tennessee's news.

The value of the imported goods stored at Santa Cruz is said to be five million dollars, besides a large amount along the interior routes.

The French minister refused to present the protest of the French citizens against the forced loan on foreigners.

President Zuologa had granted an exequatur to Mr. M. C. Milken, U. S. Consul at Acapulco.

The idea of a U. S. protectorate, says the Extraordinary, is ridiculed in Mexico.

Anarchy reigns in Sonora.

Gauyme was unsuccessfully beseiged for a week by 2,000 Indians. Whole villages had been burned and the inhabitants murdered. Santa Cruz de Mayo had been entered by the Indians and every man killed; the women and children were confined in a church and burned, with the rest of the town.

A battle had been fought on the plain of Estatato between Pesgriera and Landara in which the latter was defeated and killed. The former had pronounced in favor of Juarez.

Washington Matters.

WASHINGTON, June 18.

The navy department this morning received advices from Capt. Hudson, confirmatory of the newspaper accounts in relation to the Atlantic Telegraph Cable experiments and the future movements of the fleet. The board of engineers have been ordered to convene at Navy Yard on the 5th of July, for the examination of credentials for promotion and admission into the engineers corps in the Navy.

At the recent session of the Senate, General Harney was confirmed as Brigadier General, Phillip St. George Coop, as Colonel, Phillip E. Horne as Lieut. Colonel, and L. P. Graham as Major of the 2nd dragoons. Maj. Mordecai, Capt. Rodman and Maj. Laidley have been appointed an ordnance board, to meet at West Pt., on the 20th of July, to test the breech loading carbines of the best model for the purchase of which $25,000 has been appropriated.

The President had respited until the 20th inst., James Powers, who was to day to have been hanged for murder.

Later From Utah and the Plains.

ST. LOUIS, June 17.

A despatch from St. Joseph, Mo., per U. S. express to Booneville, says the Salt Lake mail arrived last night, bringing Camp Scott dates to May 20th. The train was 17½ days on route. At last accounts Capt. Marcy was in the Cherokee trail, 200 miles from Fort Bridger. Col. Hoffman had reached Big Sandy Creek, 78 miles from Fort Bridger.

The Mormons are all leaving the valley and going to a place named Prevo, 40 miles from the city, where it is said they intend fortifying themselves against further molestation.

Gen. Johnston would leave for Salt Lake city as soon as provisions reached him, independent of the arrival of Capt. Marcy.

The mail party met outgoing trains at the following places: First train at Three Crossings, 2nd train at Little Cottonwood, 3rd train at Ash Hollow, 4th train at Walnut Creek.

The mail train encountered a snow storm in the South Pass. They met Col. Anderson at the crossings of the South Platte; Col. May at Big Blue, and the Peace Commissioners about 19 miles from Camp Scott.

Seventy Mormon families arrived at Camp Scott, asking protection, which was given.

Captain Hawes with two hundred and fifty head of beef cattle, was met at Paw's Fork, 15 miles this side of Camp Scott. For two weeks the troops had been living on eight ounces of flour and half a pound of beef per day. Lieut. Smith was met on Green River, traveling forty-eight miles per day. The mail party averaged over sixty-five miles per day for the whole trip.

The river at this point has fallen about four inches in the last thirty-six hours, and is still falling very slowly.

The Missouri is receding about one foot per day, and the Upper Mississippi is also on the decline at about the same rate.

The Illinois is reported rising again.

Weather showery. Ther 80 deg.

Accounts of the flood at Cairo are much exaggerated. The damage is not so great as reported.

River Intelligence.

CINCINNATI, June 18.

Weather fine; thermometer 80 degrees; river falling rapidly; Miami bottoms free of water. Corn is being planted on them; wheat is in fine condition; barley is now being harvested, crop good.

ST. LOUIS, June 18.

River fallen eight inches; receding at the rate of one-quarter of an inch per hour. All upper streams reported falling. Several heavy rains yesterday; clear and warm this morning. Thermometer 89.

PHILADELPHIA, June 18.

Count Sartiges and Lord Napier, the French and English Ministers, arrived here to-day from Pottsville, where they visited the coal mines.—They took lodgings at the La Pierre House.—Count Sartiges left at one P. M., on his return to Washington, and Lord Napier will follow him to-night. Senators Seward and Cameron, accompanied the plenipotentiaries on their Pennsylvanian tour.

The Flood in Tennesee.

MEMPHIS, Tenn., June 18.

On Thursday night the great Yazoo Pass gave way. The channel is now over 30 yards wide, and deepening and widening rapidly. The water is rushing in with terrific force, washing up trees in its way, and will deluge the entire Yazoo valley.

Ohio Supreme Court Decision.

COLUMBUS, June 17.

The Supreme Court this forenoon decided that the laws passed by the late Legislature taking from the Governor the right of appointing officers for the government of the penitentiary and State House, were unconstitutional. Judge Bartley dissented.

New York Matters.

NEW YORK, June 18.

The first and second mates, Albert Loring and Charles Smith, of the ship Globe, which put in here about a month ago for repairs, have been arrested for stealing $800 worth of tobacco.

The steam frigate Susquehana, is being dismantled, by order of the Secretary of the Navy.

John McMahon, alias Geo. Wilson, the lad who robbed the jewelry store of Mr. Goodwin, his employer, in Boston, was arrested here to-day. Nearly all the plunder has been recovered.

IMPORTANT FROM UTAH.
Salt Lake City Almost Deserted—40,000 Saints Emigrating.

ST. LOUIS, June 15.

Col. Thomas L. Kane, from Camp Scott, May 16th, passed Booneville this evening. He reports that Gov. Cumming had returned to Salt Lake City after making an ineffectual attempt to stop the Mormon hegira to the South. Salt Lake City and the northern settlements were nearly deserted, a few persons only remaining to guard the buildings. Forty thousand are said to be in motion, their trains extending for miles down the valley. The advanced trains are already 300 miles distant.

To evade answering where they are bound, they say, they are going South; but their supposed destination is Cedar City or some part of Sonora. There were no mules at Camp Scott.—Col. Hoffman's train was met twenty miles from the Platte Bridge. Col. Johnston would wait the arrival of the Peace Commissioners.

The Indians were annoying the Mormons.—They call them squaws, and say that they won't fight. Brigham Young had delivered the great seal, records, &c., which it was supposed had been destroyed, to Gov. Cumming. The recent heavy rains extended far to the West, and all the streams are full.

NEW YORK & ERIE RAILROAD.

THE New York & Erie Railroad Company have earnestly endeavored during the past ten month, to establish and maintain uniform and remunerative rates of traffic by the four great lines which connect the Atlantic cities and the West. Having failed in this, and believing it to be injudicious and improper to influence traffic by the issue of free papers, by the employment of runners and solicitors, or by any other underhand means, the Company, rather than resort to such means, have determined to reduce the fares on and after Monday June 14, as follows:

Dunkirk to New York to..................$6,10
Buffalo to New York to..................5,00

NEW MEDICAL SALT!
The Most Valuable Discovery of the Age!
FOR ONE DISEASE ONLY.

THE undersigned having been appointed General Agent for the sale of Dr. Coggswell's

ANTIPHLOGISTIC SALT;

In Wisconsin, Minnesota, Michigan, Indiana, and Oregon and Washington Territories, (the Agency for Minnesota, Wisconsin and Michigan, having been relinquished to me, by Messrs. J. B. Boyle & Co., of Booneville, Mo.) would respectfully say to the Public, and to dealers in particular, throughout the North-West, that he is prepared to furnish the above named medicine either singly or by the single box, or in fifty dollar packages, to the trade, on the most liberal terms, on commission.

But a few months since, this wonderful remedy was placed in the hands of an intelligent Public, yet in so short a time nearly thirteen hundred Editors and Publishers, (in the United States, Canadas, British Provinces and England,) have personally tested or witnessed its effect in Inflammatory Diseases, and have pronounced it the most valuable medical discovery of this or any other age. This enlightened tribunal has given the Antiphlogistic Salt an established character.

The following different forms which the unbalanced fluids assume, and many more not here mentioned, that have more or less heat and fever, are as easily cured by it, as fire is extinguished by water.

1. Cases affecting the head and throat, viz: Brain Fever, Fits, Head Ache, Inflamed Eyes, Ears and Nose, Canker, Croup, Neuralgia, Erysipelas, Catarrh, Bronchials, &c.

2. Cases affecting the chest and abdomen, viz: Inflamed Lungs and Liver, Colic, Pleurisy, Coughs, Dyspepsia, Asthma, Dropsy, Heartburn, Gravel, Piles, Gonorrhoea, Venerial Diseases, &c.

3. Cases affecting the extremities and skins, viz: Rheumatism, Gout, Scrofula, Ulcers, Chilblains, Chicken and Small Pox, Salt Rheum, and most other Cutaneous Affections, &c.

This Salt is very efficacious in Fever, Ague, Wounds, Nervous and Spinal Affections, and many other forms of Inflamatory Disease, attended with heat, pain, or febrile symptoms.

Dr. Cogswell is daily overwhelmed with orders, by mail and express, for his "Salt," and, contrary to his original purpose, will be compelled to establish Agencies in every State in the Union.

Applications for County and Town Agencies are solicited, as I am desirous of placing the Salt for sale in every town in the above mentioned States, as soon as possible.

The Medicine will be sent by mail, at $2 per Box, free of charge. H. S. WARNER,

IMPORTANT TO THE PUBLIC.

THE SUBSCRIBER would respectfully solicit the attention of the people of this community to a new Elastic

Roofing Compound,

Patented March 3d, 1857, by C. R. MILES, that is what it purports to be, viz.:

FIRE AND WATER PROOF
ROOFING,

For proof of which he refers to a long and irrefragable list of certificates, a few of which are given below, and plenty of others to be seen at the office of the subscriber. Also would refer to men who have tested it in more than one hundred of the principal cities and towns in New York and Massachusetts. The patentee of the above Roofing is acquainted with the ingredients used, making, application, &c., of every Patent Roofing in the United States, and from

and close application to the business—experimenting with from one to two hundred different compounds in a year—he has no hesitation in saying that he is sure that there is not even a *possibility* that any of them (save the above) will stand the

READ! READ!

Some Testimony not bought, and no names inserted without the knowledge and cheerful consent of the parties.

Newburgh, April 19th, 1856.

St. John B. Sanborn, Esq.,

Dear Sir—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Miles, I have to state that I have examined the matter carefully, having watched its application in various places and in some very difficult ones, which it has been impossible to stop the leakage of by any other known compound. I have no hesitation in pronouncing, so far as the Water Proof qualities are concerned, essentially the thing, and as to its Fire Proof qualities, having examined the roofs of Homer Ramsdell, Esq., I find the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although constantly covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes. H. P. ADAMS.

Having felt an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the climate in this State, we were induced in September last to apply, as an experiment, a part of C. R. Miles' Mastic Roofing on a flat roof adjoining our office, (said roof being much exposed to the action of the weather, and also subject to overflow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the winter? is settled, and that C. R. Miles' Roofing must prevail over all other Mastic Roofing yet in use. SCHUYLER & PARKER,

MILWAUKEE:

SATURDAY MORNING, JUNE 19.

The Disaster on Wednesday.

A terrible accident startled our whole city on Wednesday last. At the busiest time of the day, when our streets were filled with teams and people, hurrying to and fro, on their various avocations, a new and spacious four story brick store, just occupied and opened by the proprietors and filled with a heavy stock of groceries and other goods, fell suddenly to the ground with a tremendous crash, burying a number of human beings beneath the mass of ruins. The peal of the fire alarm bell, instantly sounded, and the news of the disaster, which spread through the city with almost electric rapidity, speedily brought thousands to the spot. Hundreds of eager and willing hands were soon at work, removing the ruins and striving to reach and rescue the groaning victims who lay crushed beneath. The Firemen and the Police, under their respective chiefs, and volunteers among the citizens, all worked with a will.

Suddenly flames burst from the ruins and the vast crowd is agonized by the thought, that the poor fellows who still lie under that pile of brick and timber and merchandize, may be burnt to death before help can reach them.—But the Firemen are prepared for the contingency. No. 5 has her hose out and her brakes manned, in anticipation of fire in the ruins, and the command to "play away," on the first appearance of the flames, is responded to with an eager shout. Soon the rushing flood puts out all trace of fire, and this horror, at least, is spared.

The work goes on, and gradually, one by one, maimed, crushed, bleeding, some yet living, but one, alas! dead, the victims are rescued from the ruins. Then the crowd disperses, and watchful guards protect the exposed property from depredation during the night. Next day the work of removing the ruins and rubbish is resumed and completed. All is saved from the wreck that can be saved.. The town is rife with accounts and explanations of the disaster. Some lay it to poor mortar, others to rotten timbers, others to insufficient foundations, or weak walls. As many men, as many minds. No two seem to agree. Meantime the dead are buried, the maimed cared for; the surviving partners express their acknowledgements to their fellow-citizens for their prompt and timely help, and announce that in "two or three days" they will resume their business. And that is all. Some new incident occurs, some fresh wonder springs up, and the disaster of Wednesday is shortly forgotten by all but the sorrowing relatives of the dead who were its victims.

But *should* that be all? Must the matter end here? Shall not the lesson taught by this fearful casualty be turned to some account? In England, if such an accident had happened, an inquest would have been instantly impannelled to inquire into all the particulars and ascertain whether the victims came to their death by the act of God, or by the act of man. Is human life so lightly regarded among us; is the public safety of so little account, that such a calamity as that of Wednesday is to be passed over unnoticed and without inquiry or investigation?—Have our public authorities done their whole duty in the premises? Was it not the business of the proper officers immediately to summon an inquest upon the body of the unfortunate Mr. Ewe and ascertain how he came to his death? Ought not this still to be done? Assuredly we think so. Let the public know, by means of a legal and careful investigation, what were the probable causes of the disaster, and where the blame, if any, rests. Let us know, too, whether there is not need of some proper legal provision, regulating the construction of buildings, with a view to individual and public safety. In justice to the builders of the fallen store, in justice to the proprietors, but, far above all, *in justice to the public*, we demand that an immediate and thorough investigation be made, into the causes of the accident of Wednesday; to be followed up by such action as the case shall seem to demand. And we call upon our City Authorities, the Mayor and Common Council, the Police Justice and City Attorney, to proceed with this proper and necessary enquiry, without delay.

The Editorial Convention.

The second annual Convention of the Editors and Publishers of Wisconsin was held at Madison, according to appointment, on Wednesday last. A number of editors, from the Central and North-East sections of our State, arrived here on Tuesday, on their way to the Capitol, and were hospitably entertained by Messrs. HASBROUCK & PEARCE, the liberal landlords of the Walker House in this city. Receiving an accession to their number here the whole party, twenty odd in all, left by the afternoon train and arrived at Janesville at 10 o'clock. There they were kept *five* hours, by the delightful arrangement of the trains on the Milwaukee and Mississippi Railway, which run mainly to accommodate Chicago; but though they had strong provocations for grumbling, the genial reception they met with from Gen. MCMANMAN, of the Hyatt House, quite reconciled them to the detention. Renewing their journey at 3 A. M., the party reached Madison by half-past four, and lost no time in wooing sleep at the Capital House.

After three hours of rest, and breakfast being despatched, the Editors gathered together, informally, to arrange for business. It was quite apparent, from various signs and tokens, that they were neither wanted, nor welcome, at Madison. None of the fraternity there came near them; no accommodation had been provided for their meeting; in short, it was quite obvious that Madison disapproved of the Convention being then and there held, and intended, if possible to break it up. Editors and Printers, however, are not easily discouraged. The more Madison did not wish the Convention to meet, the more the Convention was determined that it would meet; and it was very plainly intimated that if no room was provided for the purpose at the Capitol, rooms could be had, on the shortest notice, at Milwaukee. Word, however, soon came from Mr. PARKS, the Superintendent of Public Property, that at 11 o'clock the Senate Chamber would be prepared and placed at the disposal of the Convention. In the interim, a committee was appointed to confer, informally, with the Madison obdurates and endeavor to bring them to terms.

At 11 A. M., the Convention assembled in the Senate Chamber, and was called to order by the President of the Association, HARRISON REED, Esq. The roll having been called and the minutes of the last meeting read by the Secretary, MARK M. POMEROY, Esq., a list of the editors and publishers present and of the presses represented, was made out, as follows:

Mr. ROBINSON, who was appointed to deliver the annual address, appeared by his proxy, Judge HOWE, being himself detained by the serious illness of his mother.

On motion, JOHN H. SULLIVAN, corresponding editor of the New Hampshire *Patriot*, was invited to take a seat in the convention.

Mr. POMEROY, from the committee appointed to confer with the Madison Editors, reported that the Editors aforesaid declined to recognize the convention, or to take part in its proceedings, but if it would adjourn and the members meet informally, then the Madison Editors would come in and discuss the question of holding a convention at some future day.

The report was accepted, the committee discharged, and a brief debate ensued. Considerable feeling was manifested at the cavalier manner in which the Madison Editors seemed disposed to treat their brethren from other parts of the State; but, at the same time, there was an earnest and general desire to restore the harmony and perfect the organization of the Association and, with that object, a determination to overlook this local discourtesy. Accordingly it was moved and resolved that the convention adjourn till 3 o'clock, and that the Madison Editors be invited to come in at that time, and co-operate with the Association, in agreeing upon a day for a future meeting.

At 3 o'clock the convention re-assembled. Mr. POMEROY, the Secretary, said that he had waited upon the Madison Editors, and delivered the invitation of the committee, and that Mr. CALKINS, of the *Argus*, and Mr. ATWOOD of the *Journal*, had cheerfully accepted it. Mr. CALKINS, of the *Argus*, then addressed the convention, explaining the circumstances under which the time originally fixed for the meeting of the convention had been changed by the Madison committee, and detailing the reasons for such change. He expressed his regret that any misapprehension should have occurred, and he hoped that some steps might be taken to remove this feeling, and restore union and harmony.—M. LAWTON, of the *Northron*, made a very earnest appeal for harmony, as did Mr. HOLLY, of the Wisconsin *Mirror*, and other members of the Convention.

Mr. RYAN, of the Appleton *Crescent*, offered a resolution that when the Convention adjourn it adjourn till the first Wednesday in October, the third day of the State Fair. Inquiry was made if the Madison Committee would withdraw their call for the 8th of July, should this resolution be adopted. Mr. HYER, on behalf of the Madison Committee, promised that this call should be withdrawn and pledged their cordial co-operation in the adjourned session of the Convention. The resolution was then *unanimously* adopted.

On motion, the thanks of the Convention were voted to RUFUS PARKS, Superintendent of Public Property at Madison, for his prompt courtesy in furnishing accommodations for the Convention; to Messrs. HASBROUCK AND PEARCE of the Walker House Milwaukee, and Gen. MCMANMAN, of the Hyatt House, Janesville, for hospitalities extended to the members; and to the several Railroad companies which had literally furnished free passes to every Press of the State. The convention then, at half past four o'clock, after a brief and entirely luminous session, adjourned.

It is proper to mention here, that besides the Editors and Publishers present—the largest number that ever met together in the State—M. CULLATON, of the Beaver Dam *Citizen*, Mr. WENTWORTH, of the Portage City *Record*, and Mr. TENNEY, of the Monroe *Sentinel*, were on their way to Madison, to take part in the proceedings, when they heard of the adjournment. Letters were also received by the Secretary, Mr. POMEROY, from a number who could not attend, but who entirely approved of the time and objects of the gathering. The veteran Gen. ELLIS, of the Wisconsin *Pinery*, was one of these. After the adjournment, the members of the Convention, under the auspices of Madison friends, proceeded to disport themselves. A large party went over to the Lake Side Water Cure, at the invitation of the proprietor, and passed two very pleasant hours. Others took drives about the delightful environs of Madison, which, under the bright sunshine of a lovely afternoon, with the trees in their fresh June garb, looked surpassingly beautiful in its setting of green and gold.

Still a third party, of which we were one, at the kind invitation of Doctor HUNT, and one or two of the clerks in the School Land Office, took a sail and a fish on Fourth Lake. A pleasant breeze ruffled the surface of the water and wafted us gently along to the fishing ground, where we had two hours capital sport. Returning to land and to our quarters, we found the editorial fraternity, under the lead of CALKINS, of the Madison *Argus*, BALLOU, of the Watertown *Democrat*, and POMEROY of the Horicon *Argus*, enjoying a "free and easy" at the St. Nicholas.—At midnight the party separated in high good humor, and Thursday morning we were once more on our homeward route. Some fifteen of the brethren came back by the way of Milwaukee, and spent the afternoon and evening here in seeing sights. Among the objects of interest visited was the elegant mansion of Mr. JAMES H. ROGERS, on Spring Street Avenue, and the spacious Brewery of PHILIP BEST on Chesnut Street Hill. The vast and well-stored vaults of the latter, far down in the bowels of the earth, excited the special wonderment and interest of the visitors. In the evening the party divided, some going to VIEUXTEMPS' concert, others to HANCHETT'S theatre, and all returning pleased. Yesterday our guests left us, pleased, we hope, with their visit to Milwaukee and with the action of the convention. It was a great pleasure to us to meet and make the acquaintance of so many of our editorial brethren in the State, and we confidently hope that the adjourned session in October will be attended by a large majority of the Wisconsin Press.

SENATOR CHAPPEL IN WASHINGTON.—The following is an extract from a private letter from Washington, to a gentleman in this city, which has been handed us for publication. Mr. C seems to be a persecuted man. The Senate of his own State declares him unworthy of a seat in that body—his own constituents repudiate him, and his advent in Washington does not seem to be hailed with any special enthusiasm from our members of Congress, although he displayed his usual tact in getting into their presence—that of deception. But we will not keep the reader from the extract:

"Senator Chappel, of Watertown, is here, supposed to be on a mission of brotherly love, to help Mr. Sharpstien, whose head sits unsafely on his shoulders. He got inside of the Hall of Representatives the other day, by representing himself to the doorkeeper as "a Senator" (!)—On approaching Judge Potter, the able and faithful member from the 1st district of our State, the latter asked "how he got inside of the Hall?" and on being informed, told him (Chappel) that he came in under a false pretence, and that he had understood him to have been expelled from the Senate of Wisconsin. Mr. Billinghurst treated Chappel in the same manner, and the doorkeeper was advised of the cheat; while Mr. Washburn, on Chappel offering his hand the next day in the street, declined his acquaintance altogether. Nobody, who knows the man, will suppose Chappel to be at all abashed. If his front were not of solid brass, he would have resigned long since."—*Madison Journal.*

☞ It has been recently estimated by scientific men that there are eight hundred millions of pounds sterling, in gold and jewels, at the bottom of the sea, on the route between England and India.

The Rogues' Portrait Gallery.

In the office of the detective force of the Metropolitan Police, in New-York City, is a collection of ambrotype "counterfeit presentments" of the most noted criminals who have brought themselves within the ken and custody of justice. This is kept on exhibition for the public good, but the New York *Times* has not a very high estimate of the result. That paper refers to some of the characters represented, as follows:

Here, for instance, is No. 16, a nice, well-favored, well-attired youth, named Clegg, only 19 years of age, yet a hopeless desperado, now serving out his term in the State Prison for highway robbery.

No. 21, again, represents an amicable gentleman of about 30, with a shawl artistically thrown over his shoulder, under which, while he is exhibiting the graces of the court of Louis Quatorze to the fair ladies whom, with one hand, he conducts from the theatre to the omnibus, he is rifling the pockets with the other.

No. 58 is another illustration of the *suaviter in modo, fortiter in re.* It is the likeness of a young gentleman with a name and several aliases, who has an open look, inclining to swagger, in dress approximates to the dandy, and swindles unsuspecting countrymen by the confidence game, to an extent almost incredible.

No. 68, a venerable personage, with a placid countenance, white hair, and snowy neck-tie, suggestive of the benevolent country pastor; is an experienced pick-pocket.

No. 26, represents Mr. Leonard Barker, who looks like a well-to-do merchant, with plenty of money, and strong religious tendencies. He is a notorious counterfeiter.

No. 169, one of the few ill-looking portraits, is a likeness of a desperate old vagabond called "Jew Mike."

No. 164, a Broadway swell, apparently is Thomas Shannon, a gentleman whose pleasing duty it is to black mail incautious females, who prefer losing their money to their character.

No. 172, is one of our German fellow-citizens, named Rosenthal, who once occupied the pulpit with great acceptance to his congregation, and now handles the jimmy with equal acceptance to himself.

No. 156, is Mrs Emma Howard and her confederate Flinn, who kidnapped a negro girl, and were arrested, tried, convicted, and sent to the State prison therefor. The woman is quite good looking; the man nothing remarkable either way.

No. 189, is a likeness of a lady named Mary Ann Allen, alias Rose, if her own statement be true. She is an exceedingly nice person, and one of the most successful members of her lucrative profession, to wit: pocket-picking.

No. 149, is George Garrison, a strapping negro, in a jockey cap, who operated extensively on "the queer." After his indictment, by the grand jury, he became disordered in mind, and was taken from his cell to the Lunatic Asylum, where probably, he still sojourns.

Besides these, other specimens might be mentioned, perhaps equally interesting; among which must be named several female pickpockets, and that interesting young gentleman named Howard, better known as the bogus reporter, who, unfortunately, is still at large. To those anxious for fuller information, access to the gallery is at all times, easy.

Freaks of Madness.

We condense from the Detroit *Free Press* one of the most remarkable instances of real or feigned madness, which we ever read of. Two unmarried brothers, Frenchmen, named Doyon, lived with an unmarried sister about twelve miles from Detroit. These men were eccentric and associated little with their neighbors.—They originally were Romanists, and were very superstitious, and did foolish things such as cut off the tails of the cattle to let out the bad spirits. Lately they have rather renounced their religion and have had no particular religious creed, only embracing the idea that a good or bad spirit dwelt in every human or brute. For a few days previous to the scene related below, the neighbors had noticed the conduct of the Doyons to be more than usually strange. On Tuesday morning, the 3d, a Mrs. Vanderbush, living opposite these Frenchmen, heard the report of a gun in their house and the scream of a female. She ran to a neighbor's and while going heard two more shots, and looking towards the house, saw the Doyons brothers breaking the doors and windows. The whole neighborhood was alarmed, but no one dare go near the house. Finally a Mr. Carbas had the courage to go near and call to the Doyons to come out. Auguste came to the door with nothing on save a pair of pants, and having in his hand a club, and on Carbas approaching struck him, knocking him down, but Carbas managed to escape. A consultation was had, and in the afternoon the neighbors rallied and attempted to force the house. The two mad men met the party and felled the first one, Mr. Kaufman, to the ground, breaking the skull. The second man met a like fate, and the party retreated, carrying off the two wounded men.

The Doyons, left alone, commenced a demolition of the furniture, the ceiling, and partitions, and to empty the house of its contents, and were thus occupied until the next day, so that nothing was left save the bare log walls, everything moveable being thrown into the yard and the water near by. The neighbors, who must be very ignorant, are so superstitious that they will not touch these articles. On Wednesday afternoon the brothers were seen to bring out the naked dead body of their sister, they too being entirely nude. They covered her body with a box and endeavored to sink it, but failing in that carried it back to the house. Twice they brought out the body, one having hold of the head, the other the feet, and dashing it into the water and washing it returned to the house. In their after account of their doings they said that they baptised their sister three times in order to make a Protestant of her, that they were commanded by the Almighty to do so, but at the last immersion she was so long under water as to be drowned. After these washings they threw the body out of the back door of the house. About four o'clock Wednesday they bore the body of their sister on their shoulders to the barn, which is across the road. All these things were done when the men were in a nude state and in full view of all the neighbors.

At the barn they laid the body on the floor and began to empty the building of its contents, which done, they took a heavy whip, known as the "black snake" whip, and commenced whipping the corpse, calling upon it in French to "get up." They then closed the scene by a fight between themselves. How long they fought is not known, but the marks on their bodies showed how desperate it was. They afterwards took the body of their sister and placing it in a wagon covered it with straw and left it. Arming themselves with pitchforks they started through the woods toward Gratiot.—Through the rain, and the darkness, stark naked, they made their way, and at midnight arrived, bleeding, cold and exhausted at a Mr. Pulcher's reported that they were pursued by their neighbors, who sought to kill them, and that the Lord had instructed them to flee there for succor.—Pulcher took them in, put them to bed, where they fell asleep, and then summoned the neighbors to his assistance. They slept until morning, and in the morning were persuaded to dress, and then related their story, the brother Auguste doing the most of the talking. The brothers were taken in irons to Mt. Clemens jail. The elder brother refused food, and they had again stripped themselves.

Of course the supposition is the men are insane. Yet the *Free Press* most pertinently says that it seems strange two persons should suddenly, at the same time, become deranged, and that, too, on the same subject and in precisely the same manner, and unite to carry out their insane ravings in harmony.

We notice by the Detroit *Advertiser* that the Coroner's Jury have found that the brothers are insane.

Escape from Utah.

William Allen, a young lad of about seventeen years of age, was in this city yesterday, who had escaped from Utah the 8th of March last.—He says that his father, though not a Mormon, had moved to Salt Lake City some two years before, from Chemung Co., N. Y., at the solicitation of Brigham Young, who was an old acquaintance, to carry on a distillery, and was still there, although much dissatisfied. The lad on the day of his escape was out hunting bear, with six men and some Indians.—One of the proposed making their escape to the States, but the others were afraid the proposition was made in order to "draw them out" so as to report them to the Governor, and they remonstrated, till the proposer said that he would go any way, when all joined him. The Indians immediately left for the city to give information, and in a day or two the party when in camp were surprised by a considerable number of Danites and Indians.—Resistance was made, three of the fugitives were killed, two taken and the boy and one other who fortunately were just coming in from a hunt, were upon their horses, made their escape. The pursuit was rapid but the flight was equally so, and as the fugitives had rifles they were liberally used. As soon as the man fired, the gun was taken by the boy who exchanged a loaded one for it, and thus the man had always a charge ready when he could get aim at their pursuers. His shots were effective, and several of the Indians leaped from their saddles as the death shot struck them.

This running fight was kept up till they reached a river (Blue River, we believe), when the pursuers, having two prisoners to take care of, and having lost several of their party, relaxed in their speed, and finally turned back. The boy and man plunged on their horses into the river, and swam them down some distance before landing on the opposite side. They wandered about for several days, being without accurate knowledge as to their whereabouts, till, by chance as it were, they struck the camp of Col. Johnston. Here they recruited their almost exhausted energies, and then, receiving a compass and directions from the Colonel, with letters to the various officers of the camps along the line, they started to Fort Leavenworth, following the military trail. They arrived safely. The man remained at Fort Leavenworth, and the boy, selling his rifle and pony, raised money enough to carry him to Dunkirk, where he expected to find an uncle. The uncle had, however, removed to Cincinnati, and thither the boy started. His money sufficed simply to bring him here. Having applied at a house for work, saying that he wanted thus to pay for a breakfast, his honest and intelligent appearance excited curiosity, and the story of his adventures was gradually elicited.

His case was represented to Superintendent Flint of the O. C. and C. R. R., and a pass was kindly granted him to Cincinnati. He seemed well posted as to the geography of the country, and felt confident that Young would not fight.—He says the Governor was deceived last Fall, not supposing that a force equal to that under Col. Johnston could get so near, or that the U. S. would make such extensive preparations. He says, also that, Young had asked permission of the British government to settle in their possessions north of Oregon, and that his plan was, in case the U. S. troops threatened him too closely before a permit came, to move to Sonora. There is nothing in his "news" that has not reached the press long since.—*Cleveland Review.*

THE EFFECTS OF MOONLIGHT.—Professor Piazza Smyth, the Astronomer Royal for Scotland, in his interesting account of a recent scientific expedition made by him to the peak of Teneriffe, has set at rest the vexed question of the heat of the moonlight. He says that his thermometrical instruments were sensibly affected by the moon's rays, even at the lowest of two stations occupied by him at different elevations. In tropical climates, meat which is exposed to the moonlight, rapidly becomes putrid; and in the Indies, the negroes who will lie sweltering and uncovered beneath the full glare of a tropical sun, carefully muffle their heads and faces when exposed to the moonbeams, which they believe will cause swelling and distortion of the features, and sometimes even blindness.

FURNITURE!

FACTS WORTH KNOWING!

20 Per Cent. Saved in the Purchase.

SEAMAN & WING,

HAVING removed to their New Store on Huron Street, one block east of Water Street, are now prepared to exhibit to their

OLD CUSTOMERS

And the public generally, the largest stock of

FURNITURE

EVER OFFERED IN THE WEST!

Having enlarged their

MANUFACTURING DEPARTMENT,

The stock will be principally of their own make, and warranted in all cases.

Enamelled Chamber Furniture,

Elegant designs and superior workmanship will be offered to the public at

Twenty-Five Per Cent. Less!

Than it can be furnished from the East.

THE PROPRIETORS,

Well aware of the impression existing, that a Store must be on East Water street, to secure general trade, (as an offset) pledge to the public, that the

Interest of Buyer, or Seller,

will be promoted by this change. With double the capacity of store room, and one half the amount of rent, we feel willing to test the question.

NO PERSON IN THE CITY

or parties that may visit it for the purchase of Furniture, should fail to examine

OUR MAMMOTH STOCK,

before making their purchases.

To the Public at Large.

We are prepared to prove every assertion we have made, that Furniture of every grade, from the kitchen to the parlor, will be furnished from our Establishment, at prices lower than any house in the city.

THE REASON WHY,

will be shown at our Sales Rooms.

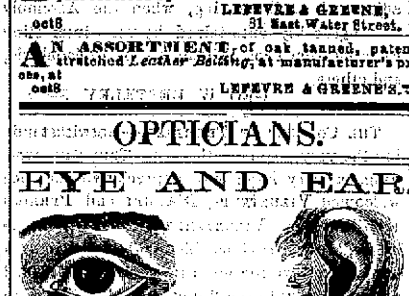
OPTICIANS.

EYE AND EAR.



DR. UNDERWOOD, formerly of the Eye and Ear Infirmary of Louisville, Ky., and more recently Physician and Surgeon to the Eye and Ear Infirmary of Columbus, Ohio, and author of a "New System of Treating diseases of the Eye and Ear, without the Use of the Knife," would announce his arrival in the city of Milwaukee, Wis., and has taken Rooms at No. 228 East Water Street, four doors south of the Walker House. Where he will remain a few weeks, in order to afford those afflicted with Diseases of the Eye and Ear, an opportunity of being treated by a system which is entirely new, perfectly safe, and has never been known to fail in effecting permanent cures, especially in all cases of Opthalmia, (or inflammation of the eye,) either Acute or Chronic; whether Catarrhal, Purulent, Scrofulous or Rheumatic. It will also remove Opacities of the Cornea, whether of a nebulous or albuginous character, or any other external scum, film or extraneous substance, from the Eye. This new mode of Treatment has never failed of curing Pterigium, Staphyloma and Amaurosis, and has even succeeded in removing Cataract from the Eye, whether Capsular or Lenticular, in a great majority of cases, without the use of the knife or needle.

He has been equally successful in the treatment of Diseases of the Ear, with his new system. For skill and success in his profession, the Dr. directs those interested to the following well known gentlemen:—

Of Peoria, Ill.—Judge Powell, Rev. R. Johnston, of the First Presbyterian Church, and Mr. McClellan. Of Columbus, Ohio—Capt. O. M. Bailey, Judge Rankin, Capt. Wm. Willis, Rev. Dr. Helburd, of the Presbyterian Church. And the following members of the Ohio Legislature—The Hon. Dr. Flowers, of Perry county; Hon. Patrick Thompson, of Coshocton county; Hon. J. A. Bell, of Medina county; Hon. Mr. Johnson, of Hocking, all of whom are personally acquainted with the Doctor's success in practice. No charge made for an examination and an opinion. Patients at a distance can have medicine sent them, by giving a minute description of their case.

Artificial Eyes and Ear Drums inserted.

Private and Confidential Medical Advice.

AT THE MILWAUKEE Venerian Hospital, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 19 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Stricture, effect of solitary habits, ulcers upon the body, throat, nose, or legs, pains in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B., makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

IMPORTANT TO GENTLEMEN.

MRS. SHANKS, at 225 East Water Street, Milwaukee, Wis., begs leave to inform the Gentlemen of this city, and particularly those who take pleasure in wearing well got up linen, that, in addition to the manufacture of SHIRT COLLARS, DRAWERS, &c., &c., which she carries on now more satisfactorily to her customers than any establishment in the North-West, she is prepared to take in WASHING of every description. Having enlarged her premises, and being in possession of a Patent Glossing Press, for Shirts, Collars, &c.; also all modern implements and ingredients requisite in her line of business; she feels confident of giving full satisfaction, and promises to do all work cheaper than any establishment this side of New York. Linen got up at the above place will in appearance, be fully equal to new goods.—Tailors and Clothing merchants will do well to give us a call, as they can recommend our work to their customers at large. Country orders promptly attended to. We sell Shirts from seven shillings to five dollars apiece. Having proved our experience as Proprietress of the New York Shirt Factory, in Baltimore, for the last nine years, we have now come to make a second commencement in the West and defy the world for better fitting Shirts, Drawers, Dressing Gowns, or anything in our line.

TO the Public in general. I am now opening another Stock of Dry Goods of some Broken Merchant, (poor fellow, I pity him,) which is, and has been, well selected. Many of them are Staple Goods; many and the most of them, are Fancy Goods, which every family want from day to day. All the said goods I will have open in a few days, and will sell them to all our citizens at half price. Ladies will please call and see the goods and see if there is not something they want. Peter Klimb and Otto Hoyer will wait upon you with all the patience of Job. I will occasionally wait on you, but I must confess, like an honest man, that I have no patience in selling goods at retail. The Goods are all beautiful and good, and every family wants them, and they can get them at half price.

I HAVE in my charge Five Hundred Acres of choicest School Land, which the owner wants to exchange for Household Furniture. The land has all been well selected, and is valued by those who are well acquainted with it, at five dollars per acre. Some of the land is near a very large saw mill. The party would like very much to purchase all the furniture of some one who is giving up housekeeping. It is a good investment for some one who is giving up housekeeping. School Lands are going to be more valuable than ever, and are now worth holding. Any one wishing to make the exchange, can call at my Auction Room. The party would have no objection to take New Furniture, provided it can be had at a fair price.
